	_____ Long Line	

AGREEMENT

I hereby agree to fill up all excavations made by me or my agents, and to replace any pipe or pipes that may have been disturbed and leave the street in as good a condition as it is at the time of the granting of this permit. I will at all times while the excavation is open guard the same with suitable railing and red lights during the night. I agree to save the city harmless from any damage that may arise through my negligence or that of my employees. I will upon two hours notice from the Director of Public Service or other proper City Official, fill up any holes that may occur by settlement of the back fill until the pavement, sidewalk or curbing has been replaced by the city.

I agree that the City of Niles, through its proper officers, may relay any pavement, sidewalk or curbing and replace any pipes that I may take up in pursuance of this permit, and that I will pay the City of Niles for same on being presented with an itemized bill for labor and material.

I further agree that if the above conditions are not complied with by me the City shall proceed to fill up the excavation and replace any pipes that may have been disturbed, to the satisfaction of the City Engineer at my expense.

I further agree that no excavation shall be made until the site has been inspected by the City Engineer, or his deputy, and such measurements made as he shall dictate. No change from this location shall be admissible; and I further agree not to fill said trench, ditch or excavation, until all connections have been examined by the engineer, or his deputy, and then, if faulty connections are found the same shall be removed and replaced by good material.

It is further agreed that this agreement shall be admitted as evidence that I have carefully read the above conditions under which this permit is issued.
