Niles Re-Opening Update

June 2, 2021

The City of Niles continues to actively monitor the COVID-19 situation, daily and follow the recommendations set forth by the Governor of Ohio, Ohio Department of Health and CDC. The administration has made numerous adjustments to its operations as a result of the ongoing COVID-19 situation. The administration has implemented critical strategies, due to the emergency to ensure that basic City operations continue, and the community is served; however, residents have experienced some non-essential procedural changes. These adjustments are appropriate and consistent with the State of Ohio and surrounding communities and may continue in the future.

Because the pandemic has plateaued, readjustments to opening procedures continue to be necessary. The City of Niles strongly encourage residents to check the City website, social media, and the local news stations for more information on COVID-19. The City will continue to follow preventative measures set by the Ohio Department of Health. The City of Niles reminds the community and its' employees to be patient and kind throughout these difficult times, as we are all experiencing this regeneration together.
